

OPPONENT'S REPORT OF DIPLOMA THESIS

Author diploma's thesis: Bc. Benjamin Kolegar

Opponent diploma's thesis: Ing. Lucie Žižková (roz. Vacková)

This particular review deals with the Master's thesis named as "MUSTANG – A PENZION". The project was created by Bc. Benjamin Kolegar in school year 2016/2017. The aim of the Master's thesis / project was to create the project documentation for realisation of a building object made up of stables and an accommodation facility.

As the opponent I have come across the following mistakes:

- The documentation doesn't comply the ČSN 01 34 20.
- Some legends and dimensions are missing from the legends.
- Improper choice of floor finish in space 110.
- It's impossible to determine the dimensions of toilets in 2nd floor.
- There is no hole prepared for the chimney in the drawing of ceiling.
- Site plan is unfinished.

Questions of the reviewer:

- Explain why is the door to room 206 dimensioned in two different ways?
- Explain the placement of windows in section A-A'?
- What is the pitch of roof?
- What is the requirements for headroom and clearance of a staircase.

The presented work exhibits more minor errors, thus it cannot be regarded as a project documentation for building realisation. At least not the whole of the work. Therefore, I award the presented work with a D / 2.5 grade and recommend it for defence.

ECTS classification level: D/2,5
